Appendix 1: IEEE MGA Response Regarding Co-sponsor's Event Reports

Following up on the discussion at the NoVA AdCom meeting Sept 12

Here is a summary of the IEEE MGA response I received a while ago regarding co-sponsor's Event Reports:

"OU" is IEEE-speak for Organizational Unit

"L31" is obsolete, IEEE now uses the terms "Event Announcement" and "Event Report"

"Host" is IEEE-speak for the OU responsible for an event

"Host" is selected from a drop down menu in the Event Announcement, so there is only one "Host".

1. Event Reports can only be created from Event Announcements.
 - The OU entered in the Event Announcement as "Host" gets the credit.
 - Entries in the "co-sponsor" field appear to be only for the reader's information and are not part of the reporting process.
 - Each Event Announcement can be used only once to create an Event Report
2. Thus, the only way for a co-sponsor to get credit is
 - Create a duplicate Event Announcement
 - Become the "Host" of the duplicate Event Announcement
 - File an Event Report from the duplicate Event Announcement
3. There are several ways to create a duplicate Event Announcement
 - The primary sponsoring OU can always duplicate their original Event Announcement easily, change the "Host" to the co-sponsor, and file for them.
 - otherwise send email to MGA and ask MGA to do it (easy)
 - or start a new one manually (tedious)
 - or use some the "duplicate creation" actions in vTools -- but note that some data fields (time and date) are blank and must be re-entered in the duplicate.
 - The choice depends on the vTools permission status of the author and whether they have access to the "manage" function or have access to the list of OUs
4. It is best practice to create a duplicate Event Announcement ONLY AFTER the event, because its only use will be to create the Event Report for the co-sponsor.
 - This makes sure that there is only one Event Announcement for Registration purposes
 - This makes sure that there are also no copies with conflicting times, dates, locations or other data items in the record.

Chandra presented a policy for co-sponsors stating requirements for financial co-share and work-in-kind contributions, perhaps these steps on reporting could be included.
