R2 Industry Fellow Ad-Hoc

• Publications from the Fellow Committee suggest that a candidate affiliated from industry, if nominated, has an equal chance of elevation to Fellow
  • Questions remain, for example, was a new industry affiliated Fellow’s citation from their work in industry or in college?
  • Contrary to Fellow Committee publications, not all the guides are up to date, for example use of url’s in the nomination forms
• The Baltimore Section has identified candidates affiliated with industry and are following the nomination process
• This ad-hoc committee would like to hear the stories of new Fellows affiliated with industry
  • Fellow committee database unable to provide a list of industry affiliated R2 Fellows (and perhaps not up-to-date for R2, 1002 (FC) vs 674(Duncan))
  • Recommend that the new Fellow class listing be made by affiliation
