

Region 2 Report

PACE Report Joe Kalasky

*Region 2 Annual Meeting
Hershey, PA, May 3-5 2019*

Reg 2 PACE Support 2019

- ▶ Sources:
 - IEEE-USA \$8.5k
 - Region 2 \$1.5k Generosity of Director Wolfram
- ▶ Net PACE Funds Available for Distribution: \$10k
- ▶ Initial Allocation to Each R2 Section: $\$500 = \$10k / 20$ Sections

Reg 2 PACE Support 2019

Caveats

1. For best exposure of the PACE name, we prefer at least three events per section rather than a singular seminar or symposium type event that consumes the \$500. This is however permissible but only with the advance approval of the Region Director.
2. All PACE Requests must be filed prior to November 1, 2019 as we need to reconcile with IEEE-USA by November 15. This includes applications for Advances for events occurring after November 1, 2019 but prior to December 31, 2019.

Reg 2 PACE Support 2019

Caveats

- ▶ 3. Your Region 2 PACE Coordinator (Joe Kalasky) can approve any legitimate PACE related event up to \$300. Amounts in excess of \$300 need approval by the Region Director.
- ▶ 4. Congressional Visit Days are eligible for PACE funding but only for one person per section per year. (Per WB 4/29/2019)
- ▶ 5. When an event in your series breaks the \$500 cap, a partial funding will apply such that the net \$500 cap is preserved.
- ▶ 6. Subsequent events entirely above the \$500 cap will be held in queue for “possible” funding in mid-year.

Reg 2 PACE Support 2019

Caveats

7. At the end of each quarter, the PACE coordinator will assess how each section is performing in the PACE realm. The coordinator will motivate those sections with minimal or no PACE activity and alert those nearing the \$500 cap

Reg 2 PACE Support 2019

Caveats

After July 15, 2019 all unallocated PACE funds will be released in the following manner:

- Complete the earlier partial payments in order of date first applied.

Reg 2 PACE Support 2019

Caveats

- Complete full payments to those legitimate Requests that were rejected due to being entirely above the cap. The full payments will be made in order of date applied but on a round-robin method such that one section does not receive all the remaining funds. That is, we consider all the first Requests from the Sections in queue and pay in order of date submitted. Then, we do the same for the second Requests for those remaining sections in queue. We repeat until all requests are honored or until Funds are depleted. This action makes for an equal playing field for the novices who are just learning the process. No singular section will receive over \$1,500 net for 2019.

Reg 2 PACE Support 2019

Caveats after July 15 2019

PROJECTS IN ORDER OF RELATIVE DATE FILED						
SECTION						
ALPHA	1	2	3	4	5	6
BETA	1	2	3			
GAMMA	1	2	3	4
