It has been my great pleasure to serve the last two years as your Region Director. Our Region is the smallest by land area of any of the 10, but we are about half way up the list on members, and we have just about the highest density of membership of anywhere on the planet. Our Region membership includes many in the policy world due to our proximity to Washington, many in the technical support of government and industry in the East, and a very solid industrial base in the West with focus on Power and other infrastructure activities and programs. Everyone in our four areas should be proud of the history and accomplishments of our 20+ Sections. Those of you that I DID get the chance to
On the down side, I came into the role of Director-Elect with an ambition to meet with every Section during my tenure, and in that sense, the nightmare that was the COVID pandemic, thwarted my objectives almost universally. Before I ever got to put on the Director pin, the world had already been shut down for 7 months. It was only this past summer that the majority of people in the US began again to travel and interact without masks and off of Zoom/WebEx/Teams/etc.

I sincerely hope that my elected successor has more of an opportunity to engage with you all and continue the growth and healing of IEEE over the next two years.

I hope to see many of you in the future,

Barry Tilton
2021-22 Region 2 Director
IEEE Region 2 Committee members that facilitate, orchestrate, and implement the IEEE R2 strategy for success: Officers: Barry Tilton (RD), Dr. Drew Lowery (RD-Elect), Philip Gonski (Treasurer), Neeta Basantkumar (Secretary), Area Chairs: Jim Beck (Central), Joseph Burns (East), Don Herres (South), Chang Liu (West), Committee Chairs: Marc Apter (Life Members, Parliamentarian), Steve Bonk (Educational Activities, IEEE-USA Policy), Joseph Burns (IEEE-USA K-12 STEM), Carole Carey (WIE), Gerard Christman (A&A), Joe Cioletti (Industry Relations), Tom Fagan (IEEE-USA Policy), Parviz Famouri (N&A), Dr. Bharat Rawal (RSAC), Anna Romaniuk (Employment & Career Activities), Matteo Sabattini (Technical Policy), Dr. Bhanu Sood (HAC), Ralph Sprang (Awards, MemDev), Xavier Smith (RSR)

Past RD’s (Wolfram Betterman, Kate Duncan, Timothy Kurzweg, Parviz Famouri, Ralph Ford)
Thanks to our phenomenal **Section Leaders** whom along with our Councils, Society Chapters, Affinity Groups, and Student Branch leaders are the engine behind IEEE R2’s success!

The launch of Artemis I marks the beginning of a new space age, echoing the excitement of the Apollo missions a half century ago. IEEE-USA policy associate Kayla Henneberry explores what this new endeavor represents.

Here are the top three ways you can take a step back and find ways for stronger communication in your professional life.

In the third volume of his series about upgrading your personal value, Dr. Terence Yeoh explains how having a personal vision, mission and means will enable you to tune your engine for the unique experiences that lie ahead. Free download for all IEEE members!
Creativity – Our Valuable Lifelong Skill – Vol. 3: Creativity Challenges

Author: Harry T. Roman

This book is the third in a three-volume series on creativity. It discusses how "polymathism" is critical to unleashing creative thinking.

IEEE-USA Financial Literacy Webinar Series

This series will explore a variety of topics including investing basics, insurance, healthy financial habits, as well as retirement. Register Today!

- Investing Basics: Five Steps to Building a Disciplined Investment Strategy, 11 January 2023 @ 2:00 pm - 3:00 pm
- Insurance Concepts and Products: How to Secure Your Assets and Income, 8 February 2023 @ 2:00 pm - 3:00 pm
- Starting Your Journey Towards Healthy Financial Habits, 8 March 2023 @ 2:00 pm - 3:00 pm

This compilation is the complete collection of IEEE-USA’s award-winning series of 24 individual narratives, written by successful women engineers and technologists.

IEEE Philadelphia Section

The Awards Banquet was held Thursday, November 17 at Crowne Plaza Philadelphia – King of Prussia where we recognized those honored by the section for their contributions to the industry. And the WINNERS are:

Philadelphia Section Member
- Joseph Picone, PhD, Professor, Department of Electrical and Computer Engineering, Temple University
- Kate M McDevitt, IEEE Philadelphia Membership Chair, Women in Engineering Team Leader

Benjamin Franklin Key Award
- Ravikumar Pragada, Senior Director and Sr. Principal Engineer at InterDigital
- Michael Nispel, Senior Principal Engineer for Energy Storage with Comcast Cable’s Critical Infrastructure group

Corporate Technology Innovation Award
- Channel Logistics, LLC DBA Space-Eyes, LLC
- Exyn Technologies, Inc.

The East Area covers the following IEEE R2 Sections
- Philadelphia
- Southern New Jersey
- Lehigh Valley
- Delaware Bay

Chair: Joseph Burns

Delaware Valley Young Electrical Engineer of the Year Award
- Xun Jiao, Assistant Professor, Department of Electrical and Computer Engineering, Villanova University
- Vidya Ganapati, Assistant Professor of Engineering, Swarthmore College

Delaware Valley Engineer of the Year Award
- Brandon S. Swartley, Vice President and Technical Director, STV Incorporated

Merrill Buckley Jr. Student Project Award
- AI-RISC for efficient processing of edge AI workloads – Recipient Vaibhav Verma

**Joint**

We are excited to share with you a new local IEEE award that was created this year by representatives of the Washington and Northern Virginia Sections. The award, to be given annually to an IEEE member in either Section, recognizes the life and legacy of **Dr. Saj Durrani**. Saj was a longtime member and Fellow of the IEEE. Many of you were fortunate to have known or to have met Saj at some time during your careers. He was collegial, modest in his ways and dedicated to excellence. He achieved recognition for his outstanding achievements in global and satellite communications. And Saj was seen to have had an even higher calling. It was the essence of his character. Saj was known for his mentoring and advising skills. He took time to promote diversity within the workplace. And he always maintained a vision for pursuing peaceful scientific initiatives. These tributes, of special quality, were all blended into the **Saj Durrani Technical Achievement Award**. Nominees with achievements in any area of communications are eligible for the Award. The nominee receiving this award will understand that it is given primarily for technical achievement, but it also carries evidence of the nominee having the same personal qualities that Saj himself displayed. For more information please contact Harry Sauberman, P.E., hsauberman@ieee.org.

---

**IEEE Columbus Section**

The **IEEE Columbus Section** proudly celebrated its **100th Anniversary on Nov 16, 2022**, with a banquet held in the historic Columbus district. Members from technical societies, student chapters, and academia along with families, and friends celebrated the event and honor the many members and officers who paved the way for the Columbus Section to become a vibrant community of technical professionals.

Highlights of the event is the keynote address by one of IEEE’s celebrated speaker **Mr. Jim Watson**. Mr. Watson has delivered more than 2,225 presentations in the United States, Canada, Europe, and Asia to a total audience of over 110,000. This includes 75,000 students at 203 different universities.

Mr. Watson delivered a dynamic presentation about *“Our Past and Future Perspective”* with respect to technology. The vital role IEEE programs and initiatives helped shape and it's members major contributions in the technical, professional, and social advancement for humanity.

Columbus section is proud to receive the **2022 MGA Outstanding Medium Section Award**, and also retain the **Gold** rating for **Outstanding Section Membership Recruitment and Retention Performance** for four consecutive years. Technical societies and Affinity groups are actively conducting joint events with student sections to expand visibility and enhanced professional-student relations.

- IEEE Cleveland Section (Oscilloscope Workshop at CSU)

IEEE Dayton Section

- University of Dayton student Ms. Malia Harvey describing her tunable varactor research project to the Dayton Section Membership during the Fall Orientation at Sinclair Community College on October 20th.

- Dayton Section provides tutorial on Microelectronics and Microfabrication at Versailles HS to 103 students as part of Electron Device Society’s 75th Anniversary of the invention of the transistor.

IEEE PEAL Joint Chapter in Dayton, OH, recently held a successful IN-PERSON technical event on November 3, 2022, on the topic of “Arc Fault Technology”.

PEAL was formed in 2012 combining local talent from the Power and Energy Society (PES), Industry Applications Society (IAS), and the Power Electronics Society (PELS) into a joint IEEE chapter.

Dennis Grosjean is a Life Member of IEEE. During the meeting, we discussed the causes, effects, and remediation techniques of electric arcing with emphasis on the perspective of the aerospace and automotive industries. Dennis demonstrated many interesting high-speed videos of realistic scenarios. He also discussed the electrical discharges in air at pressures and temperatures corresponding to the range of altitude from sea level to 60,000 Ft. The event was very successful with 12 attendees, comprised of graduate students, faculty from University of Dayton, and engineers from the Air Force Research Laboratory. The IEEE PELS/IAS/PES joint chapter (PEAL) sponsored the meeting.
